

HSMC Campus Visit 2015 Organised by School of Decision Sciences

5 May 2015

The campus visit was successfully held on 5 May 2015 (Tuesday). The event had attracted a total of over 70 teachers and students from four high schools in Kowloon and New Territories.

The campus visit featured a variety of events. Our three programme directors provided the latest information to all participants about the three programmes: Bachelor of Science (Honours) in Data Science and Business Intelligence (BSc-DSBI), Bachelor of Business Administration in Supply Chain Management (BBA-SCM) and Bachelor of Management Science and Information Management (BMSIM). Meanwhile, the programme directors introduced the future development of related industries in Hong Kong and in the world, and also the career development of graduate students. Besides, colleagues from Registry also provided great support in explaining the application procedures during the event.

After the programmes' introduction, our administrative staff held a campus tour for all the participants, visiting the Decision Sciences Technology Laboratory and the Applied Statistics Laboratory in particular. All visitors enjoyed the campus visit and had a better understanding of HSMC and the three programmes under School of Decision Sciences.

Dr Choy Siu Kai introduced the BSc-DSBI Programme to the participants

Teacher representatives received souvenirs from Dr Collin Wong (1st from right) and Dr Choy Siu Kai (1st from left)
